

Suffering from TMJ Symptoms? Find Relief with Dr. Valen in Warminster

Do you have headaches? Neck pain? Frequent tenderness in your jaw? If those symptoms sound familiar, you may be one of the many people in Warminster with TMJ disorder.

"TMJ" describes a variety of conditions that affect the temporomandibular joint (the point where the jaw opens and closes) and nerves, which can result in chronic facial pain. These problems have been poorly understood in the past, but we have the experience necessary to diagnose your TMJ and treat it effectively.

In most cases, the symptoms related to TMJ disorders can be successfully treated to reduce or eliminate your discomfort completely. But delayed treatment of TMJ can result in more damage to the joint, muscles, or teeth. We can discuss a variety of therapies that may work for you, so pick up the phone and call (877)363-3564 today.

When you're ready to say good-bye to your TMJ symptoms, rest assured that Signature Dental of Bucks County is the office that Warminster trusts to provide effective relief. Turn to the experienced team at Signature Dental of Bucks County for knowledgeable, caring treatment of TMJ syndrome today.
